

# Grid

TikZ Key	Type	Description
timing/grid	Style	Style used for drawing grids. Depends on <code>help lines</code> and <code>timing</code> .
timing/draw grid	Action	Enables background grids for <code>\timing</code> macros.
timing/no grid	Action	Disabled background grids for <code>\timing</code> macros.

# Table

TikZ Key	Type	Description
timing/table	Style	Used for <code>tikztimingtable</code> . Depends on <code>timing</code> .
timing/table/grid	Style	Used for table grid. Depends on <code>timing/grid</code> .
timing/table/lines	Style	Used for <code>\horlines</code> and <code>\vertlines</code> .
timing/table/rules	Style	Used for <code>\tablerules</code> for top and bottom lines.
timing/table/midrules	Style	Used for <code>\tablerules</code> between table head and body.
timing/table/header	Style	Used for <code>\tableheader</code> .
timing/table/title header	Style	Used for label header in <code>\tableheader</code> .
timing/table/row header	Style	Used for timing row header in <code>\tableheader</code> .
timing/rowdist= <i>&lt;distance&gt;</i>	Setting	Sets (baseline) distance between rows in a <code>tikztimingtable</code> . Default: 2 (=2×signal height)
timing/coldist= <i>&lt;distance&gt;</i>	Setting	Sets distance between columns in a <code>tikztimingtable</code> . Default: 1 (=1×period width)
